

Statement of Purpose for Student Visa Application

Respected Visa Officer,

I have strong family ties and responsibilities in Nepal, where I live with my loving and supportive family. My father runs [REDACTED] and leases land, while my mother owns [REDACTED] Udhyog and generates income from [REDACTED] by [REDACTED]. Their combined annual income totals AUD \$[REDACTED]. To support my education, we have taken an education loan of NPR [REDACTED] from [REDACTED], fully funding my studies. As the only child, I bear significant responsibility for my family and will eventually inherit these duties. I completed my Grade 10 at [REDACTED] [REDACTED] with a GPA of 3.50. Afterward, I completed my [REDACTED] in [REDACTED] in 2023. Currently, I work as a [REDACTED] at [REDACTED] [REDACTED] starting from [REDACTED]. These strong familial, economic, and professional ties provide compelling reasons for me to return home after my studies.

I wish to study the Bachelor of Health Sciences at [REDACTED] due to its strong reputation for high-quality education and practical training. Ranked [REDACTED] globally by the QS World University Rankings 2025, La Trobe offers a well-structured course focusing on practical knowledge and hands-on experience, preparing students to address real-world challenges in health sciences. Australia's world-class education system, multicultural environment, and supportive policies for international students make it an ideal study destination. La Trobe's emphasis on industry placements and community engagement will equip me with essential skills for a successful career. I understand the course requirements, including core subjects in health sciences and supervised field placements, which will enhance my practical knowledge. Additionally, I am prepared to meet the financial and personal responsibilities of living in Australia, ensuring a focused and fulfilling academic journey. Studying at La Trobe will help me achieve my professional aspirations effectively.

Completing the Bachelor of Health Sciences at La Trobe University will equip me with essential skills and knowledge to pursue a rewarding career in various health sectors, including public health, digital health, environmental health, and health promotion. Potential roles I aim to undertake include public health manager, health promotion coordinator, or environmental health officer. After completing the course, I plan to return to Nepal and address the pressing challenges in the country's health sector. My goal is to improve public health systems, promote health awareness, and design effective programs that enhance community well-being. Nepal faces significant healthcare challenges, including limited access to resources and awareness of preventive care. This course will provide me with a strong theoretical foundation and practical expertise to implement impactful health programs, contributing to the overall development of Nepal's healthcare infrastructure and making a meaningful difference in the lives of people in my community.

I am a dedicated student with a strong passion for improving public health systems and a clear commitment to pursuing the Bachelor of Health Sciences at La Trobe University. Currently, I am working at [REDACTED] since [REDACTED]. As the only child of my parents, I hold the responsibility of caring for them in their old age. My family has strong social and financial ties to Nepal, including property valued at [REDACTED] and an established business generating consistent income. Additionally, my family and community connections further reinforce my deep-rooted ties to Nepal. These factors, combined with my desire to contribute to Nepal's healthcare sector, strongly incentivize my return after completing my education. With a [REDACTED] core of [REDACTED], achieved on [REDACTED], I am academically prepared to excel in this program. Upon completion, I aim to enhance public health systems and promote community well-being in Nepal.
